

# Global Enhanced Mobility Index Factsheet

GLOBAL  
PASSPORT  
INDEX

## Welcome to Our Global Passport Index

Discover the world's best passports in 2023 with our Global Passport Index. We rank 199 global citizenships of today using a set of composite indicators—key mathematical aggregations—to determine a passport's power. Going beyond just looking at the total number of destinations that a passport holder can access without a visa, our index uses a robust and nuanced scoring system to determine a passport's allure for business, quality of life, and investment opportunities.

## A passport's full story, backed by science

Over the years, several global passport rankings have been developed, enabling individuals to understand how easily a passport can facilitate travel abroad with little to no visa restrictions. Yet, besides visa-free travel, there are also other, just as important benefits to acquiring a second passport, which Global Citizen Solution's Global Passport Index addresses. Our index uses quantitative data like composite indicators to evaluate specific criteria that make certain passports so attractive. The ranking is based on data from various international institutions and multilateral organizations such as The World Bank, the World Economic Forum, and the Sustainable Development Report and is bolstered by senior analysts. The world is at your fingertips.

Flick through different passports, search by country or continent, and explore how the strength of your passport plays out across our three standalone indexes: Enhanced Mobility Index, Investment Index, and Quality of Life Index. You can also see how a passport ranks across multiple metrics like personal taxation, sustainable development, and cost of living, for instance.

## The world, at your fingertips

Flick through different passports, search by country or continent, and explore how the strength of your passport plays out across our three standalone indexes: Enhanced Mobility Index, Investment Index, and Quality of Life Index. You can also see how a passport ranks across multiple metrics like personal taxation, sustainable development, and cost of living, for instance.

Uncover the true value of your passport by looking at how travel-friendly, investor-friendly, and relocation-friendly your passport is.

POWERED BY GLOBAL CITIZEN SOLUTIONS

## Investment Migration as a Viable Path to a Second Passport

While citizenship has traditionally been granted through birth, naturalization, and marriage, the rules have changed since 1984. Various countries worldwide have carved out a new path toward citizenship—known as citizenship by investment. By investing in a nation's infrastructure or economy, qualified and vetted individuals are granted second passports and can, in turn, enjoy personal freedoms and financial prosperity while simultaneously protecting their assets.

Investment migration also encompasses residence-by-investment, which works similarly to citizenship by investment. In this case, individuals are offered temporary residence, which can lead to permanent residence and even citizenship by naturalization later.

Benefits are ripe for individuals seeking second citizenship or residency solutions, from enhanced travel mobility and unfettered access to business and educational opportunities to asset diversification and improved safety and security. For host countries, foreign direct investment serves to bolster the state's economy, resulting in extra capital flows to the public and private sectors.

Nearly one hundred countries worldwide run either residency or citizenship by investment schemes, including 60% of EU member states.
